D. Director's Report

1. RevJet Software Presentation - Chris Ohm, Delasoft

Mr. Ohm provided a brief overview of the Delasoft software and turned the presentation over to his colleague to demonstrate the capabilities of the software. RevJet software is specifically designed to assist with the management of airports. The specific capabilities that Wittman Regional Airport would be interested in are the lease management system and the hangar waiting list management system. However, this software can also integrate with our current county Munis software and has many more capabilities that work with our airport invoicing and accounting. Mr. Ohm states that Delasoft is willing to provide this to Wittman Regional Airport at no cost for the foreseeable future. Since Wittman Airport hosts AirVenture, they feel that their software being used by our airport would be worth the promotion it would provide.

F. EAA Report

Mr. Elliott announced that we will have the Great Britain Red Arrows at AirVenture 2026. They will be performing on Friday, Saturday, and Sunday of AirVenture, so the show box will be expanded for those days. The expanded show box will only affect the businesses, not the residents, and EAA will make sure they have everything in place for the Wittman Airport tenants.
